What is LoadedCatalogue?

LoadedCatalogue is the internet ordering service designed to cater for businesses' indirect spend. Whether you are a small IT start-up buying IT consumables and stationery, or a large public sector body purchasing everything from cleaning products to uniforms, LoadedCatalogue can help you.

LoadedCatalogue has three different editions designed to suit different types of organisations. To find out what is included in each edition and which best suits your organisation's requirements visit the Features and Pricing page on www.loadedcatalogue.net.

Loaded Catalogue puts you in control

- Assemble orders at a time to suit you - 24/7.
- Browse the online catalogue to search for products.
- Build up order templates or use your order history to speed up ordering.
- Check stock information and pricing online.
- Submit orders to your chosen suppliers simply and efficiently with one basket.
- Print a copy of your order for your records or save to your PC.

LoadedCatalogue - the fast, easy and reliable online marketplace for your indirect spend.

It's simple for Users

All you need is a web browser. Navigate to the LoadedCatalogue website, login then either browse through product categories or search for the item you want, drop the item into the basket and proceed through the checkout. It's that simple. If you can shop online at Amazon or Tesco you already know how to use LoadedCatalogue.

It's simple for IT

LoadedCatalogue is a totally hosted solution. You don't have to buy, install or maintain any hardware, software or middleware. If you've got a web browser and an internet connection you've got everything you need.

Implementing LoadedCatalogue couldn't be easier. Simply fill in a few details about your users and delivery points, send that back to us and within a few days your LoadedCatalogue will be ready for use. We're committed to getting you up and running so that you can see value quickly and smoothly.

With our assisted administration service there is never any work for IT to maintain your LoadedCatalogue. Simply tell us that you want to add an additional user and we'll make the required changes in good time for you.

It's simple for Finance

With LoadedCatalogue Unique Edition you get additional features such as budget control, approval loops and electronic invoices. With these additional features all users can make requisitions but finance is in control.

Since Loaded Catalogue generates high order volumes suppliers offer their products to Loaded Catalogue users at a very competitive price. This means that significant cashable savings can easily and quickly be generated by using Loaded Catalogue for all of your indirect spend.

LoadedCatalogue saves you TIME, MONEY and HASSLE
